Sorry that news program had to drag us into being associated with that sort of publicity. I was devastated when I heard Spencer's quote on Love Lives Here and how the news caster spun it and made you have to defend the organization. He took an email I sent to the Human Rights Network (that I was dumb enough to forward to him) and made the story. I'm nervous about becoming a target now...

Dear Tanya and Judah,
Friday night would not have been possible without you. Thanks you so much for making magic happen for all of us. I was a night I will not forget. Seeing you lighting the candles with your children in front of our Whitefish friends. Hearing the story of Chanukah told to a willing and receptive audience. Hearing Christmas and Chanukah music played together and everyone participating in both. What a night!

Thank you both for being open to the possibility that it was and is.

May we be together soon again.

Best thoughts and blessings, Ina

Ina Albert
